

TITLE

NON-AQUEOUS DISPERSIONS COMPRISING ELECTRICALLY DOPED
CONDUCTIVE POLYMERS AND COLLOID-FORMING POLYMERIC
ACIDS

5

ABSTRACT

Compositions, and methods of making, are provided comprising non-aqueous dispersions of at least one doped conductive polymer and at least one colloid-forming polymeric acid, wherein the conductive polymer is selected from a polythiophene, a polypyrrole, a polyaniline, and 10 combinations thereof. Electronic devices and other applications having at least one layer made from at least one such compositions are further provided.
